## **2010 Medicare Provider Directory**

This directory is for Flagler and Volusia counties, Florida.

This directory is current as of July, 2010. Some plan providers may have been added or removed from the list after this directory was printed. To get the most up-to-date information about Florida Health Care Plans plan providers in your area, you can visit [www.fhcp.com](http://www.fhcp.com) or call our Member Service Department at 386-615-4022 or 1-877-615-4022. ## **Section 1 – Introduction**

This directory provides a list of Florida Health Care Plans' plan providers. To get detailed information about your health care coverage, please see your Evidence of Coverage.

Use this introduction section to describe how members should use this directory for example to select PCP if your plan uses PCP, explain sub networks, referral circles if applicable, and which types of providers require referral. Use, delete or modify the following based on plan arrangement.

You will have to choose one of our plan providers that are listed in this directory to be your **Primary Care {Physician/Provider}** (PCP). The term "PCP" will be used throughout this directory. Generally, you must get your health care coverage from your PCP, unless you have elected the Optional Point of Service benefit.

The "plan providers" listed in this directory have agreed to provide you with your health care coverage. You may go to any of our plan providers listed in this directory; however some services may require a referral. If you have been going to one plan provider, you are not required to continue going to that same provider. In some cases, you may get covered services from non-plan providers. If you receive a bill from a non-plan provider, you should forward the bill to FHCP's Claims Department at P.O. Box 9910, Daytona Beach, FL 32120 for processing. If you have elected the Optional Point of Service benefit then you may choose to see any non-plan provider or facility that accepts Medicare assignment outside of FHCP's network or contracted HMO participating provider, without a referral.

**Contract Facilities****Contracted Hospital & Emergency Facilities**

"Emergency Medical Condition" is defined as a condition manifesting itself by acute symptoms of sufficient severity (including severe pain), such that a prudent layperson, with an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in serious jeopardy to the health of the individual (or in the case of a pregnant woman, the health of the woman or her unborn child), impairment of bodily functions, or dysfunction of any bodily organ or part. FHCP contracts with the listed hospital and emergency facilities, however, for those members requiring emergency services where the time to reach a FHCP contracted facility would mean the risk of jeopardizing the member's health, the member should seek medical care and treatment at the nearest appropriate facility or hospital even if FHCP does not contract with same.

FHCP contracts with the following hospitals for inpatient, outpatient and twenty-four (24) hour emergency services; however, Pediatric admissions are only available at Halifax Health Medical Center, Daytona.
