This directory is current as of September, 2011. Some network providers may have been added or removed from the list after this directory was printed. We do not guarantee that each provider is still accepting new members. Section 1 – Introduction

This directory provides a list of Florida Health Care Plans’ network providers. To get detailed information about your health care coverage, please see your Evidence of Coverage.

You will have to choose one of our network providers that are listed in this directory to be your **Primary Care {Physician/Provider}** (PCP). The term “PCP” will be used throughout this directory. Generally, you must get your health care coverage from your PCP. Unless you are a member of the Medvantage Plan (HMOPOS) or the Medvantage Rx Plus Plan (HMOPOS) and have elected the Optional Supplemental Point of Service benefit.

The “network providers” listed in this directory have agreed to provide you with your health care coverage. You may go to any of our network providers listed in this directory; however, some services may require a referral. If you have been going to one network provider, you are not required to continue going to that same provider. In some cases, you may get covered services from non-network providers. If you receive a bill from a non-plan provider, you should forward the bill to FHCP’s Claims Department at P.O. Box 9910, Daytona Beach, FL 32120 for processing. If you are a member of the Medvantage Plan (HMOPOS) or the Medvantage Rx Plus Plan (HMOPOS) and have elected the Optional Supplemental Point of Service benefit, then you may choose to see any non-plan provider or facility that accepts Medicare assignment outside of FHCP’s network or contracted HMO participating provider, without a referral.

Emergency care can always be obtained in or out of the service area from the nearest available provider. When in the service area you must use plan providers for urgent care. When out of the service area urgent care may be obtained from the first available provider. In addition, when out of the service area you can obtain dialysis treatment from any qualified dialysis provider. If you obtain routine care from out-of-network providers neither Medicare nor Florida Health Care Plans will be responsible for the costs.

Contract Facilities**Contracted Hospital & Emergency Facilities**

"Emergency Medical Condition" is defined as a condition manifesting itself by acute symptoms of sufficient severity (including severe pain), such that a prudent layperson, with an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in serious jeopardy to the health of the individual (or in the case of a pregnant woman, the health of the woman or her unborn child), impairment of bodily functions, or dysfunction of any bodily organ or part. FHCP contracts with the listed hospital and emergency facilities, however, for those members requiring emergency services where the time to reach a FHCP contracted facility would mean the risk of jeopardizing the member's health, the member should seek medical care and treatment at the nearest appropriate facility or hospital even if FHCP does not contract with same.

FHCP contracts with the following hospitals for inpatient, outpatient and twenty-four (24) hour emergency services; however, Pediatric admissions are only available at Halifax Health Medical Center, Daytona.
