FHCP members will need to first be referred to a designated FHCP Psychiatrist noted above for evaluation and recommendation into the program. There are specific health plan benefit requirements that must be met for FHCP coverage of ASD. Therefore, once the member is appropriately diagnosed by Psychiatry, the FHCP Referral Department must verify that benefit requirements are met.

INSTRUCTIONS: PCP's should refer members with suspected autism disorder to the FHCP Psychiatric Department. Preauthorization is NOT needed for this referral. The FHCP member or requesting provider may call the specialist to schedule an appointment. The specialty office will advise you of their scheduling protocol.

The FHCP Psychiatrist shall evaluate and diagnosis the member. A FHCP Referral form shall be completed by FHCP Psychiatry for members with qualifying diagnoses. Psychiatry shall attach pertinent documentation to substantiate the request and forward by fax (386 / 238-3253) or courier, to FHCP's Central Referrals at the Holly Hill facility. The Referral Department will review the request and notify Psychiatry of their benefit determination decision. If approved, FHCP will contact Easter Seals. Easter Seals will work with the member directly on appointment scheduling.

Easter Seals will extend a discounted rate to FHCP members who do not have ASD benefits.

Additional Diabetic Shoe Provider information on the following page.

DIABETIC SHOE PROVIDERS (continued)

INSTRUCTIONS: Diabetic shoes, inserts and/or modifications to the shoes are covered if the following criteria are met:

1. The patient has diabetes mellitus (ICD-9-CM diagnosis codes 250.00-250.93); and
2. The patient has one or more of the following conditions:
 - a) Previous amputation of the other foot, or part of either foot, or
 - b) History of previous foot ulceration of either foot, or
 - c) History of pre-ulcerative calluses of either foot, or
 - d) Peripheral neuropathy with evidence of callus formation of either foot, or
 - e) Foot deformity of either foot, or
 - f) Poor circulation in either foot

FHCP will follow Medicare guidelines for this service. In one year, the patient is eligible for 1 pair of off the shelf diabetic shoes and 3 pairs of custom molded inserts or 1 pair of custom molded shoes with 2 pairs of replacement insoles. **Custom molded shoes are only available through Hanger Prosthetics and JSC Pedorthics, Inc.**

To request this service please place your order on a **prescription pad** and include applicable covered criteria as listed above. Please indicate if both shoes and inserts are needed. The patient should then be directed to bring the **prescription** to the provider of their choice. Discounts will be offered for patients not meeting above criteria.

CASE MANAGEMENT DEPARTMENT (continued)

PROCEDURE for Referral to Complex Program

Members for the various programs may be referred utilizing Complex Care Referral &/or an Outpatient Community Resource Referral form and (fax or telephone), by any health care provider, component of FHCP, family member or patient self referral.

Criteria for Enrollment in Programs

All programs:

Completion of comprehensive, weighted health questionnaire with score indicating level 3 or 4 complexity/need (levels 1 and 2 will be directed back to their PCP for management within the office). On patients that meet criteria and enroll in the program you will receive a Plan of Care that will require your signature and to be returned to the case management department. The POC will include the assessment scoring, members self reported medication list and any recommendations provided to your patient. In addition to the POC, we will also be requesting patient information, such as blood pressures, etc. for baseline data as needed, if we are unable to retrieve the information from other sources.

1) Acute Intervention (case management assessment and services for up to 3 months):

- 1-2 ER encounters or Hospital admissions in last 12 months
- Frequent PCP or Specialist encounters or office coaching without improvement
- MTM screen eligible
- Outpatient social service encounters

2) General Complex, CHF Telescale, Transplant, Behavioral Health Complex, (case management assessment and services across the continuum for more than 3 months):

- Two or more hospital admissions within the past 12 months.
- Chronic disease or diseases require close monitoring such as Asthma, CAD,CHF, CKD, COPD, Diabetes, Depression (or other mental health diagnosis), Transplant
- Patient issues regarding safety, quality of life and care.
- Psycho-social needs requiring close monitoring and assistance of a health care professional.
- When quality, cost effective care or complex management may enhance continuity of care and quality of life.
- (for telescale member with CHF) and able to use scale with phone modem in home safely and consistently.

Additional Case Management Department information on the following page.

CASE MANAGEMENT DEPARTMENT (continued)

3) Medicare Health Support,(formerly known as (CCIP) is a long term case management program) for Medicare members with diagnosis of CAD,CHF, CKD(stage 3 or 4), COPD, or Diabetes :

- Medicare Advantage Member.
- Diagnosis of CAD, CHF, CKD (stage 3 or 4), COPD, or Diabetes.
- 1 or more hospitalizations within the past 6 months with diagnosis related to targeted diagnosis list.
- 2 or more ER visits within the past 6 months with diagnosis r/t targeted diagnosis list.

4) Outpatient Community Resource:

Referral to CM Outpatient Community Resource Coordinator may be initiated when an issue arises that is social or financial in nature by filling out the Outpatient Community Resource Referral form and faxing it to the CM Department or calling the CM Department. Providers may utilize the Case Management Social Service Intake form.

FHCP's Case Management Department is not a primary alternative to social services or case management provided to members receiving home health care or other services with established/affiliated providers, such as Evercare or DCF, nor a substitute for urgent evaluation or intervention by the physician. SS does not offer emergent placement services nor emergent staffing, Initial SS contact can not be guarantee to occur sooner than 1 working day from receipt of referral.

To access the FHCP Case Management Department, please call 386 / 676-7187 or fax at 386 / 615-4058. For contact to assist with after hours needs, please call the FHCP Call Center at 386 / 226-4542

INSULIN PUMPS

It is the policy of Florida Health Care Plans to follow Centers for Medicare and Medicaid and Milliman Care Guidelines for approval of an Insulin Pump for Florida health Care Plans members.

PROCEDURE

All orders for the Insulin Pump will be processed through the Central Referrals Department. Attach the following documentation and laboratory values to the Referral.

Criteria A:

- Diagnosis of Diabetes Mellitus Type 1 that is obvious or that is documented by a fasting C-peptide level that is less than or equal to 110 percent of the lower limit of normal of the laboratory's measurement method, or positive GAD or insulin auto-antibodies; or
- Diagnosis of Diabetes Mellitus Type 2 manifested by wide fluctuations in blood sugars, or severe insulin resistance with inadequate glycemic control (i.e. HgbA1C > 7.0% despite multiple insulin injections with > 50 units per day + or – oral agents); and
- Completion of a comprehensive Diabetes Education Program (10 hour ADA Recognized Self Management Class or equivalent) within the past three years, to include carbohydrate counting by RD CDE. Once Diabetes Education and Carbohydrate counting has been completed, the appropriate educator will notify physician of completion via email or dictation within 72 hours of completion; and
- Documentation of an average of four (4) per day self glucose testing during the two (2) months prior to ordering pump; and
- Appointment with RN Diabetes Educator for evaluation and introduction to Pump
- Documentation of frequent adjustments of insulin dose for three (3) months prior to order.

And meets one or more of the following:

- Glycosylated hemoglobin level (HbA1c) >7.0 percent.
- History of recurring hypoglycemia and/or hypoglycemic unawareness.
- Wide fluctuation in blood glucose before mealtime.
- Dawn phenomenon with fasting blood sugars frequently exceeding 200 mg/dl.
- History of severe glycemic excursions.
- Pregnancy.

Additional Insulin Pump information on the following page.

INSULIN PUMPS (continued)

Criteria B:

- The patient with Diabetes has been on a pump prior to enrollment with Florida Health Care Plans; and
- Has documented frequency of glucose self-testing an average of at least four (4) times per day during the month prior to enrollment;

And the patient has been evaluated by an Endocrinologist who recommends continuation of the insulin pump within the last 3 months.

Member should be seen and evaluated by the treating Endocrinologist* at least every three (3) months.

*Insulin pumps may be ordered and managed only by a treating Florida Health Care Plans Endocrinologist or contracted Pediatric Endocrinologist.

All pediatric insulin pump patients under the age of 18 must be treated and managed by a Pediatric Endocrinologist.

INSTRUCTIONS: Complete the FHCP Referral Form. Attach pertinent documentation to substantiate the request and forward by fax (386 / 238-3253) or courier, to FHCP's Central Referrals at the Holly Hill facility. The Referral Department will review the request and notify you of their decision.

Prior authorization from the FHCP Central Referrals is not needed. The requesting provider will send an order to the specialist. Appointments can be made by the physician’s office or the member can call after the order has been received by the specialty office. The specialty office will advise you of their scheduling protocol.

MEDICATIONS (REQUIRING PRIOR AUTHORIZATIONS)

Following is a list of medications that either **require prior authorization in order to be covered or are not covered** under the FHCP's prescription drug benefit. Specific guidelines for the prior authorization medications can be found in FHCP Policy/Procedure MGP017. This policy has been sent to all offices. The policy is also available on PAI (Provider Access Inquiry) in the FHCP Provider Handbook. For additional information, please contact Carol Cooper, LPN / Provider Relations Coordinator at 386 / 615-4001.

Biologic or Enzyme therapies not specifically listed must receive approval through the FHCP Central Referral Department prior to administration for reimbursement.

Prior authorization from the FHCP Central Referrals is not needed. The requesting provider will send an order to the specialist. Appointments can be made by the physician's office or the member can call after the order has been received by the specialty office. The specialty office will advise you of their scheduling protocol.

The exceptions to the above are:

- **Breast MRI's**
- **Stereotactic Breast Biopsy**
- **Sestamibi Scan**
- **Ultrasound Guided Needle Breast Biopsy**
- **CT Colonography (Virtual Colonoscopy)**
- **Pill Cam**
- **Genetic Testing**
- **PET SCAN (PCP's ordering PET SCANS must have prior authorization)**

INSTRUCTIONS FOR EXCEPTIONS: Complete the FHCP Referral Form. Attach pertinent documentation to substantiate the request and forward by fax (386 / 238-3253) or courier, to FHCP's Central Referrals at the Holly Hill facility. The Referral Department will review the request and notify you of their decision. If approved, FHCP will schedule the member's appointment and also confirm the appointment with the patient.

ORTHOPAEDICS - SPORTS MEDICINE (Non-operative Orthopaedics and Primary Care Sports Medicine)

Halifax Sports Medicine #009158 John Shelton, M.D., Program Director Richard Branoff, M.D. Thomas R. Terrell, M.D. All ages	303 N. Clyde Morris Blvd., Daytona Beach, FL 32115	386 / 254-4165 Fax: 386 / 254-4339
---	--	---------------------------------------

INSTRUCTIONS: The Requesting Provider, or the member, can call this Specialist's office directly at 386 / 254-4166 without completing a FHCP Referral form. Pre-authorization from FHCP's Referral Department **is not needed**.

Range of services:

1. Evaluation of Musculoskeletal strains and sprains of any kind. Return to play recommendations are made for all. Treatment encompasses all modalities but emphasis is placed on using exercise/rehabilitation as treatment
 - a. Casting and splinting is performed when appropriate
2. Competitive athletes needing more complex or immediate return to play determinations. Examples are as follows:
 - a. Concussion
 - b. Evaluation of heart murmur
 - c. Failed pre-participation exam
 - d. Return after mononucleosis or other illness.
3. Stress fractures
4. Overuse injuries; tennis elbow, shoulder pain/rotator cuff syndrome
5. Soft tissue and joint injections to facilitate rehabilitation and recovery
6. Special problems unique to sports populations:
 - a. Female athlete triad (amenorrhea, osteopenia/stress fractures and disordered eating)
 - b. Management of serial concussions; Return to play recommendations are evolving in this controversial field.
 - c. Exertional syncope – these patients **should avoid all exertion** until evaluated for potentially life threatening problems. Call if any problems arranging appointments.
 - d. Fitness evaluations including VO2 max testing
 - e. Exertional compartment syndromes. This is the only location in Central Florida performing **exertional compartment pressure measurements**.
7. Consultation for safe exercise prescription with any medical condition
8. Consultation for athletes seeking advice regarding travel and performance, including international travel recommendations (NCAA or IOC).
9. Endurance athletes (marathon, triathlon, ultramarathon) seeking advice on training, current injuries, injury prevention and consultation during the event.

Do not refer patients with traumatic fractures, orthopaedic evaluations when surgery is considered, pre-ops when surgery is needed and patients desiring an orthopaedic opinion.

QuitSmart of Daytona Beach Donald E. Davis, L.C.S.W.		386 / 676-7110 or 800 / 232-0578
---	--	-------------------------------------

INSTRUCTIONS: This program is comprised of 3 classes, spaced about 2 weeks apart over a period of 6 weeks. **No referral is needed** and members may call directly to the FHCP Marketing Department in Holly Hill at 386 / 676-7110 or 800 / 232-0578 to make a reservation for the classes. The Marketing Department will be maintaining the schedule for the program. The member is responsible for a \$20.00 supply fee, with FHCP paying for the balance of the program. FHCP is covering this as a one-time benefit for each member.

These services will be provided at various FHCP facilities as well as designated FHCP Client Employer group locations throughout Volusia and Flagler Counties, Florida.

For more information, you may contact Mr. Davis at 386 / 846-7366 or Email: ddavis@QuitSmart.com.

SPORTS MEDICINE (Non-operative Orthopaedics and Primary Care Sports Medicine)

John Shelton, M.D., Program Director Richard Branoff, M.D. Thomas R. Terrell, M.D. All ages	Halifax Health Center for Family & Sports Medicine 201 N. Clyde Morris Blvd., Suite 200, Daytona Beach, FL 32114	386 / 254-4165 Fax: 386 / 254-4339
--	---	---------------------------------------

Prior authorization from the FHCP Central Referrals is not needed. The requesting provider will send an order to the specialist. Appointments can be made by the physician's office or the member can call after the order has been received by the specialty office. The specialty office will advise you of their scheduling protocol.

Range of services:

1. Evaluation of Musculoskeletal strains and sprains of any kind. Return to play recommendations are made for all. Treatment encompasses all modalities but emphasis is placed on using exercise/rehabilitation as treatment
 - a. Casting and splinting is performed when appropriate
2. Competitive athletes needing more complex or immediate return to play determinations. Examples are as follows:
 - a. Concussion
 - b. Evaluation of heart murmur
 - c. Failed pre-participation exam
 - d. Return after mononucleosis or other illness.
3. Stress fractures
4. Overuse injuries; tennis elbow, shoulder pain/rotator cuff syndrome
5. Soft tissue and joint injections to facilitate rehabilitation and recovery
6. Special problems unique to sports populations:
 - a. Female athlete triad (amenorrhea, osteopenia/stress fractures and disordered eating)
 - b. Management of serial concussions; Return to play recommendations are evolving in this controversial field.
 - c. Exertional syncope – these patients **should avoid all exertion** until evaluated for potentially life threatening problems. Call if any problems arranging appointments.
 - d. Fitness evaluations including VO2 max testing
 - e. Exertional compartment syndromes. This is the only location in Central Florida performing **exertional compartment pressure measurements**.
7. Consultation for safe exercise prescription with any medical condition
8. Consultation for athletes seeking advice regarding travel and performance, including international travel recommendations (NCAA or IOC).
9. Endurance athletes (marathon, triathlon, ultramarathon) seeking advice on training, current injuries, injury prevention and consultation during the event.

Do not refer patients with traumatic fractures, orthopaedic evaluations when surgery is considered, pre-ops when surgery is needed and patients desiring an orthopaedic opinion.
