RE: FHCP WOUND AND OSTOMY SERVICES

FHCP has a Wound Care Clinic that offers wound and ostomy services. Wound services include conservative sharp debridement, draining wounds and fistulae, non-healing wounds, and atypical and complex wounds. Ostomy services include management of new and existing ostomies; particularly, assistance with ostomy devices and ostomy-related problems.

Services are provided by Charles Wright, MSN, ARNP-BC, who has national board certification both as a family nurse practitioner and additionally in the area of wound, ostomy, continence nursing. Collaborating and consultative services are provided by FHCP surgeon, Harry Black, M.D.

Examples of patients not appropriate for this service include those who are under surgical management, unless referred by the surgeon, those with cellulitis and intact skin, and those patients with weeping edema and intact skin.

These services are provided at the FHCP Facility – Daytona Beach. Clinic appointments may be made by calling 386-238-3200 ext. 3535. Faxes may be sent to the clinic at 386-238-3264. This service does not require prior authorization from FHCP Central Referrals. The clinic is conveniently located in Suite Two, on the 2nd floor of the Daytona Beach Facility, 350 N. Clyde Morris.

Insurances currently accepted include all FHCP Benefit Plans, Traditional Medicare, selected Blue Cross Plans and Self-pay. Blue Cross patients should call this clinic to verify participation in their specific plan.
